

BOYDELL & BREWER

HISTORY OF RELIGION

NEW & FORTHCOMING HIGHLIGHTS

THE NOBILITY AND ECCLESIASTICAL PATRONAGE IN THIRTEENTH-CENTURY ENGLAND

ELIZABETH GEMMILL

This book provides the first full-length, integrated study of the ecclesiastical patronage rights of the nobility in medieval England. Taking as its focus the later thirteenth century, it examines the nature and extent of these rights, how they were used, why and for whom they were valuable, what challenges lay patrons faced, and how they looked to the future in making gifts to the Church.

RELIGION AND THE DEMOGRAPHIC REVOLUTION

Women and Secularisation in Canada, Ireland, UK and USA since the 1960s

CALLUM G. BROWN

In an innovative 'turn back' from postmodern theory and method, Callum Brown reasserts the importance of people's own liberal desires for freedom and moral rectitude based on a sense of common humanity rather than dogma. In a comparative study looking at Britain, Ireland, Canada and the USA, he shows how secularisation has not been limited to religious decline but has invoked a revolutionary demography based on the spreading new morality of the contemporary age.

ENGLISH NUNS AND THE LAW IN THE MIDDLE AGES

Cloistered Nuns and Their Lawyers, 1293-1540

ELIZABETH MAKOWSKI

In late medieval England, cloistered nuns, like all substantial property owners, engaged in nearly constant litigation to defend their holdings. However, although lawyers were as crucial to the economic vitality of the nunneries as their patrons, their role in protecting, augmenting or depleting monastic assets has never been fully investigated until now. This book relates the nuns of such important houses as Dartford, Bruisyard and Syon to the legal profession; and looks at representative cases from

both ecclesiastical and royal courts that illustrate the work of lawyers on behalf of these clients.

THE CULTURE OF INQUISITION IN MEDIEVAL ENGLAND

Edited by MARY C. FLANNERY & KATIE L. WALTER

These groundbreaking essays show the variety and complexity of the roles played by inquisition in medieval England. Covering such topics as the theory and practice of canon law, heresy and its prosecution, Middle English pastoralia, political writing and romance, the collection redefines the nature of inquisition's role within both medieval law and culture, and demonstrates the extent to which it penetrated the late-medieval consciousness.
