HISTORY OF BRITISH INTELLIGENCE SERIES

THE SECRET WAR BETWEEN THE WARS: MI5 IN THE 1920S AND 1930S

KEVIN QUINLAN

Using previously classified documents, this book details the operations and tradecraft of British intelligence to thwart Communist revolutionaries, Soviet agents, and Nazi sympathizers during the interwar period. This new study charts the development of British intelligence methods and policies in the first half of the twentieth century and illuminates the fraught path of intelligence leading to the Second World War.

[T]his book is a gem....intriguing and riveting...from chapter one to

the end it is a great read. Each chapter is essentially a case-study in intelligence tradecraft, ranging from the use of official (diplomatic) cover for espionage purposes; counter-subversion; recruitment and handling; penetration agents; and, finally, defection and debriefing... A great book. INTERNATIONAL AFFAIRS

BRITANNIA AND THE BEAR

The Anglo-Russian Intelligence Wars, 1917-1929

VICTOR MADEIRA

Decades before the Berlin Wall went up, a Cold War was already raging. But for Bolshevik Russia, Great Britain - not America - was the enemy. Drawing on over sixty Russian, British and French archival collections, this book tells for the first time the full story of the earliest known Soviet spies in Whitehall.

Excellent...a pioneering work [that] should also appeal to anyone interested in modern politics, international relations and, as strange as it may sound, in Russia's

present-day secret intelligence operations in Britain.

THE LAWN ROAD FLATS

Spies, Writers and Artists

DAVID BURKE

The story of a modernist building with a significant place in the history of Soviet espionage in Britain, where communist spies rubbed shoulders with British artists, sculptors and writers.

This book, like the Lawn Road flats themselves, is full of surprises. SUNDAY TIMES

Burke's book is constructed like the building itself: each chapter has at its centre a life story of one or other key resident of the ISOKON, and these stories are as interconnected

as were the tenants at the Lawn Road Flats. ... [Its] history has now been meticulously restored by David Burke.

BRITISH SPIES AND IRISH REBELS

British Intelligence and Ireland, 1916-1945

PAUL MCMAHON

The struggle between British intelligence agencies and Irish revolutionaries has lasted for centuries but was at its most intense during the first half of the twentieth century. Ireland experienced a bloody rebellion, bitter partition and a stuttering march towards independence, while Britain grappled with imperial decline and world war. Using recently opened archives, this book casts light on characters long kept in the shadows and probes some deeper questions about intelligence and the complex Anglo-Irish relationship.

This exemplary book is the definitive study of its subject. THE MILITARY TIMES

The section on neutral Ireland is particularly enlightening as it is often overlooked by historians and contains an interesting cast of characters including John Betjeman and Elizabeth Bowen. BOOKS IRELAND
